# ▶ WHAT IS KOSICT?

**KosICT** is a tech festival which held its first edition in 2011 with the aim of bridging the gap between the local and international ICT markets by highlighting and bringing the latest technological trends and developments to the Balkans, through local, regional and international experts who would share their experiences and knowledge with the audience comprised out of software developers, ICT enthusiasts and experts, C-level Executives, Academia Representatives and Students.

Another very important goal of the **KosICT** tech festival is to promote the local ICT sector on an international scale through visitors from international companies attending **KosICT**, our partner associations and renowned speakers that grace the stages of **KosICT** and act as ambassadors for Kosovo and the local ICT sector by promoting their experience here to their colleagues, business partners, etc.

As a technology festival, **KosICT**, is enriched by a few different elements including **two conference format stages** highlighting some of the latest topics and trends in the ICT industry, an **innovation fair** focusing on some of the most prominent start-ups, a **brokerage event** bringing together local & international businesses, and last but certainly not least, an **eSports tournament** highlight the talents and promoting the gaming community in Kosovo.

This year, for its latest 9th edition, **KosICT** was a hybrid of physical and virtual speeches and discussion panel by expert local and international speakers. The 9th edition of **KosICT** tech festival was organized by Kosovo ICT Association - STIKK and was held on December 11th - 13th, 2020. The tech festival was attended by over **2500 participants** in three various platforms where the speeches were streamed those being: KosICT Web Platform, Facebook and YouTube.

Two conference stages were built at Innovation Centre Kosovo (ICK) where **18 local** and **20 international** speakers explored topics like: eCommerce, CyberSecurity, Game Development, Artificial Intelligence, Big Data Analysis, Internet of Things, Industry 4.0, Digitalization, Branding for the Digital Era, and many more. The speakers that graced the stages of **KosICT** during its 9th edition represented world renowned companies like IBM, Microsoft, Siemens AI, Capgemini, Publicis, Berlin Games Week, Cloudical, Josephs Open Innovation Lab, and many more.

Continuing the tradition of supporting and promoting promising Start-Up's, **KosICT** once again welcomed the Innovation Fair, this time virtually, where 15 Start-Up's highlighted their work.

Finally, the Brokerage Event organized under the umbrella of **Enterprise Europe Network (EEN)** brought together 90 local and international businesses for two days of private meetings and potential partnership explorations.

**KosICT** was concluded with the grand finals of the **KosICT CS:GO Masters** tournament, where 8 of the best teams in the region competed for a prize pool of 4000 Euros.

# PROCREDIT BANK MAIN STAGE

PROGRAM: DECEMBER 10TH, 2020

10:00 – OPENING REMARKS  
10:30

Çelik Nimani - STIKK Board Vice President, Frakton  
Jenny Sørvoid- Embassy of Norway in Kosovo, Deputy Ambassador

10:35 – ARTIFICIAL INTELLIGENCE & THE FUTURE OF WORK [KEYNOTE]  
11:10

Bernd "Benno" Blumoser - Siemens AI Lab, Head of Innovation

11:15 – THE PATH TO DIGITALIZATION: DO'S & DON'TS  
12:05

**MODERATOR:** Donjeta Sahatçiu - Rrota, CEO

Goran Bosankic - ABC Tech Group, CEO

ProCredit Bank

## MAIN STAGE

The COVID-19 pandemic has effected and altered every aspect of our daily lives, including the organization of the 9th edition of **KosICT** tech festival. In order to keep the feel and authenticity of the previous editions of **KosICT**, the **ProCredit Bank MAIN STAGE** was contructred at Innovation Center Kosovo where local speakers participated physically, while the international speakers joined the conversation virtually.

The 9th edition of **KosICT** was officially opened by the Vice President of the Board of Directors of Kosovo ICT Association (**STIKK**), **Mr. Çelik Nimani** who welcomed the virtual audience and highlighted some of the main topics to be discussed over the two days on both stages. The floor was then passed on to the Deputy Ambassador of Norway to the Republic of Kosovo, **Ms. Jenny Sørvold** who spoke about the continuous support the Norwegian Embassy has extended to the ICT community in Kosovo, as well as, some of the future plans of the embassy related to the growth of the local ICT industry.

The first **KEYNOTE** of the 9th edition of **KosICT** was delivered by Mr. Bernd Blumoser, the Head of Innovation at Siemens AI Lab who spoke about **Artificial Intelligence and the Future of Work**, a topic he's an expert in as one of the founders of the Siemens AI Lab. Mr. Blumoser explored how AI will affect our daily work in the future.

The keynote was followed by the first Discussion Panel of the day on the topic of **The path to Digitalization: Do's and Don'ts**. The discussion was moderated by Ms. Donjeta Sahatçiu, CEO & Partner at Rrota and the panelists who joined her for this discussion where: Mr. Mërgim Cahani, the founder of Gjirafa, Mr. Valon Canhasi, CEO of Hallakate and Mr. Enur Pakashtica, the founder of MikMik. This discussion explored the path to Digitalization from three different points of view, the service provider, the client and the promotional aspects.

The program for day one at the ProCredit Bank MAIN STAGE was also enriched by two discussion panels sponsored by the **ICT for Kosovo's Growth Project**, the first one focusing on **Cybersecurity: Where we are & where we should be?**, while the second discussion panel highlighted the topic of **Telehealth: Remote Monitoring & Tele-consultation**. These topics were discussed by experts of the above mentioned fields including: Dr. George Sharkov, Cyber Security Adviser to the Minister of Defense in Bulgaria, Prof. Dr. Mitko Bogdanoski, Vice Dean of Military Academi "General Mihailo Apostoski", Dr. Pantelis Angelidis, Professor of Digital Health at the University of West Macedonia, Dr. Nikolaos Gkouvas, President of Informatics and Innovation at the Hellenic Psychiatric Associations, amongst others.

Keeping up with the theme of Digital Health, the concluding topic of the first day at the ProCredit Bank MAIN STAGE was in regards to **Digital Healthy: How Technology is bringing Doctors closer to us** delivered by Mr. Christian Schultz a board member at Health Hackers e.V. The topic explored the various developments in the medical industry, especially during the COVID-19 pandemic which aim to bridge the gap between doctors and patients.

The second day of presentations and discussions at the **ProCredit Bank MAIN STAGE** kicked off with a presentation by Mr. Brian Kissman, the Head of School at the American School of Kosovo who talked about the impact COVID-19 has had in the **educational aspects and how have they adapted to these changes through digital learning**. The following topic explored **Innovation as a means of Survival** and was delivered by Dr. Benedikt Hockmayr, the CEO of Josephs Innovation Labs. Through his presentation, Dr. Hockmayr shared his insights on how Innovation is one of the best tools companies have in their fight for survival and the importance it holds in the successful development of companies.

A discussion panel on **eCommerce & ePayments**, sponsored by the festival's Premium sponsor, ProCredit Bank, brought together panelists Ms. Argjira Kadrijaj, Head of Business Development at ProCredit Bank, Ms. Ermira Kadriu, Brand Manager at GNTC Group and Ms. Donjeta Sahatçiu, Partner and CEO at Rrota. The panel was moderated by Ms. Zana Tabaku, CEO at AppDec. The discussion explored eCommerce and ePayments from various aspects and the impact it has had on running a successful business.

A few of the other topics covered during the second day of the 9th edition of **KOSICT** at the **ProCredit Bank MAIN STAGE** included: **eID - as an enabler for Citizens & Businesses**, **Cyber Resilience & Economy**, both topics were sponsored by the ICT for Kosovo's Growth project, **Digital Travel** and the evolution of **eSports** amongst others.

The 9th edition of **KOSICT** tech festival was brought to a close by the executive director of Kosovo ICT Association (**STIKK**), Ms. Vjollca Çavolli, who as the organizer of **KOSICT** thanked the speakers, sponsors & partners and the whole team for putting together the hybrid edition of **KOSICT**, as well as, the virtual audience for attending and their extended interest in making this edition a successful one.

# DEVELOPERS STAGE

Kutia **DEVELOPERS STAGE** focused on technical presentations offering insight into some of the latest programming languages, new features and developments, as well as, highlighted detailed technical aspects of topics like: **Artificial Intelligence**, **Social Media** as a tool for eCommerce, **Project Management**, **Spotify**, **Quality of Education** and the importance of Trainings, amongst numerous other topics.

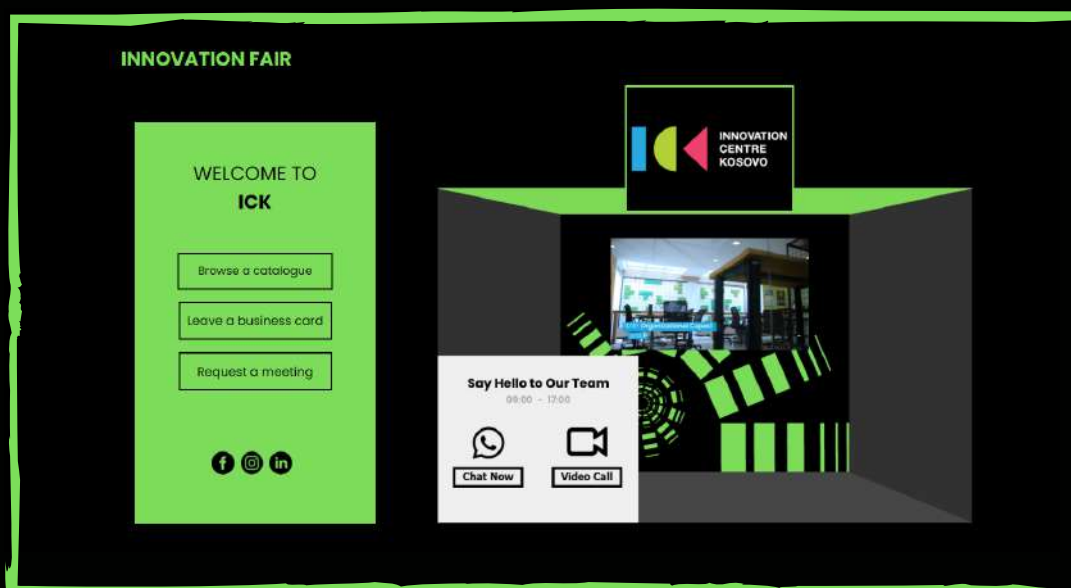

Amongst the many interesting topics discussed during in the **Kutia DEVELOPERS STAGE** over two days, undoubtedly was the conversation with one of the most streamed local artists on Spotify, **Capital T**, with whom we discussed the effects **Spotify** being available in our market has had on the local music industry and the impact it might have in the future.

# ICK INNOVATION FAIR

Continuing the tradition of supporting and promoting the work of promising local Start-Ups coming out of **Innovation Center Kosovo (ICK)**, another important element of the 9th edition of **KosICT** tech festival was the virtual Innovation Fair. **15 new and innovative startups**, each with their own stand and live video calls with the attendees, were presented at this year's Innovation Fair. During two days of the festival, the selected Start-Ups had the chance to highlight their work, showcase their passion for technology and entrepreneurship and discuss with attendees regarding their products and potential investments. Just as well, one of the booths at the Innovation Fair was reserved for the **ICT for Kosovo's Growth Project** where they highlighted the main goals of the project and the attendees had a chance to learn about all the various elements of the project and how they might be able to benefit from them.

# ICK INNOVATION FAIR

The following Start-Up's participated at the virtual **Innovation Fair** of the 9th edition of **KosICT** tech festival.

**Biotech**

Biotech Agriculture turns your greenhouse, into a smart one - utilizing IoT. Enabling distance management, Biotech Agriculture measures parameters such as water, humidity, soil moisture, temperature, and auto-regulation of wind.

<https://www.facebook.com/Biotechagriculturee>

**CloudMyCar**

CloudMyCar - product of CloudMyBusiness LLC.. Is a digital solution for the car-care industry. The product, enables you to book your car maintenance services online, and keep your car history intact.

<https://www.facebook.com/cloudmybusiness/>

**MAIA**

MAIA Global Inc. is a Smart City Hardware building company, aiming to automate recycling bins - while serving as both a source of commercials, and internet hotspot.

[www.maia.global](http://www.maia.global)

Pyper, is your next research tool. Build super-attractive and fluent questionnaires, surveys, and other data-collection forms. Report ready data generated and hand-delivered.

<https://pyper.info/>

**EQUART**

At Equart, local/regional entrepreneurs could tap into local/regional freelancers to conduct certain design work on a project based manner. Expansion aimed toward other professions.

[www.equ-art.com](http://www.equ-art.com)

# ICK INNOVATION FAIR

Behamics, is scaling towards increasing targeting effectivity of e-commerce platforms, using Artificial Intelligence (AI). Already establishing partnerships with some of the largest fashion retailers in the industry.

<https://www.behamics.com/>

Cyber protectors and Ethical Hackers gather at FindBUG, to solve security issues using joint and very specific expertise - using the crowdsourcing security solutions model.

<https://findbug.io/>

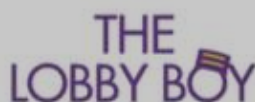

Digital Transformation Solutions combined with User Experience and Customer Journey definition process, cross roads at Scalegate. They, build upon technological partnerships with organizations around the region.

<https://scalegate.co/>

As a Transportation Management System, Tratics offers utilization of your cargo transportation through comparing fastest routes, and best deals in the market - Rule 11. Market Intel will soon be complemented through Freight Audits and Direct Payments.

<https://account.worksense.cloud/>

A Property Management System Platform (PMSP), the Lobby Boy does present us with the opportunity to effectively book and administer HoReCa. We have seen Lobby Boy penetrate through the United States, Australia, Asia, and the U.K.

<https://thelobbyboy.com/>

# INNOVATION FAIR

Enchele, makes your living easier. Turn your regular home into a smart one, using Enchele's Application and Controlling Equipment. Connect them to your favorite smart-home device, to get the most out of your smart home.

<https://enchele.com/>

Tech in Fashion is what Fight-or-Flight stands for. Their team, will make your clothes move and perform certain actions that could very well also assist you in certain ways.

<https://www.f6s.com/fightorflight>

fix your tie,  
the interview 3.0  
is coming..

The interview has developed a cutting edge HR Recruitment application, enabling candidates to take their interviews - in distance, at their own pace, virtually. Sourcing and recruitment becomes way easier and accessible through the Interview App.

**APP Application**

Worksense, rounds up all your admin processes and internal network of operations under one roof. As a solution, the platform combines utilization and information security to get synergistic value.

<https://worksense.cloud/>

# BROKERAGE EVENT

Due to the governmental measures in place preventing the spread of COVID-19, this edition's **Business Lounge** was replaced by a **virtual brokerage event** organized under the umbrella of Enterprise Europe Network (**EEN**). Through the b2match brokerage platform, participating companies had the opportunity to arrange one-on-one, private meetings and explore possibilities of collaboration and potential partnerships. Below you may find some of the key statistics from the two day brokerage event, bringing together local and international companies. The brokerage event is an integral part of the **KosICT** Tech Festival.

This brokerage event was co-organized by:

## PARTICIPANTS BY COUNTRY

# ▶ STATISTICS

The 9th edition of **KosICT**, although hybrid and much different from the previous editions, has reached quite a decent number of attendees over the two days of the conference, brokerage event, innovation fair, as well as, the **KosICT CS:GO Masters** eSports tournament. The number of international speakers coming from some of the most recognizable tech companies in the world has sure affected the number of visitors in all the platforms where the speeches and discussion panels were streamed. The 9th edition of **KosICT** was without a live audience due to the restrictions in place for preventing the spread of COVID-19. The following statistics are based on the virtual audience attending the tech festival

Bellow you may find a breakdown of some of the key statistics for the 9th edition of **KosICT**, secured from the three platforms where the tech festival was streamed: **KosICT Platform** (WEB), **Facebook** (Social Media) and **YouTube** (Streaming Platform).
